

REMARKS

Claims 1 – 6 are pending in the above-identified patent application. Claims 1, 5, and 6 were objected to and claims 1 – 6 were rejected in the Office Action dated March 21, 2005. Claims 1, 5, and 6 are being amended. Reconsideration is respectfully requested.

Claim Objections

Claims 1, 5, and 6 were objected to because of informalities. These informalities are being corrected as indicated above. Specifically, periods before the end of claims have been removed and term expression has been pluralized. Accordingly, withdrawal of the objections is requested.

Claim Rejections

Claims 1 – 6 were rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter that applicants regard as the invention. The indefiniteness phrases have been amended for clarity.

Specifically, in claim 1, the expressions introduced by “i.e.,” have been replaced or deleted as indicated above. Further, the phrase “for the sake of convenience” has been deleted.

In claims 5 and 6, the expression “the hydrocarbon solvent” has been replaced with “a hydrocarbon solvent” to correct for antecedent basis.

No new matter is being added.

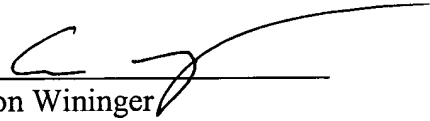

As such, Applicants request withdrawal of the rejections.

The Examiner indicated that the claims would be allowable if amended to overcome the objections and rejections. As they have been overcome, Applicants respectfully request a Notice of Allowance be issued in this case.

If the Examiner has any questions or needs any additional information, the Examiner is invited to contact the undersigned.

Respectfully submitted,
Nami Hoon Baik et al.
